

saunum

Sauna heaters and climate control systems

Saunum's mission is to encourage more and more people to discover the sauna as an exceptionally pleasant and relaxing way to maintain their health.

Developing smart, safe, high-quality and healthy sauna solutions that are characterized by modern design, functionality and a pleasantly simple user experience is a subject close to our hearts.

saunum

At Saunum, we're pioneering a new era of quality for the sauna

- the biggest revolution in sauna technology in 70 years
- innovative, patented technology based on years of scientific research
- a uniquely healthy sauna microclimate
- a deeply relaxing, full-body sauna experience
- turn your sauna into a home spa

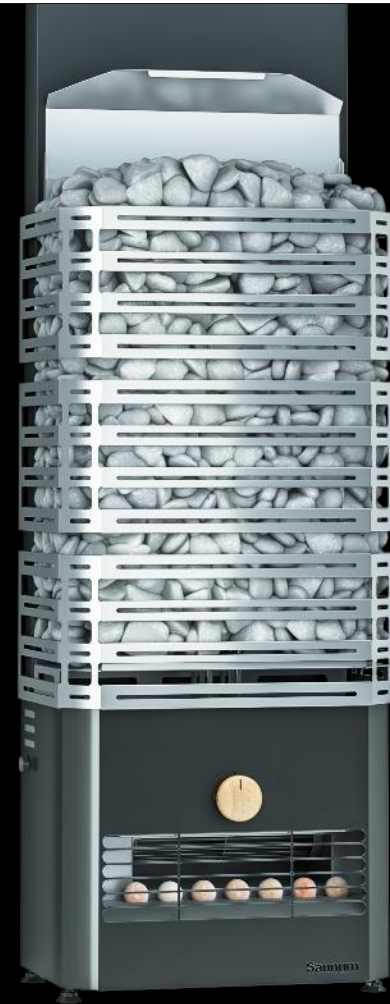

saunum

Award winning

The world's most advanced
sauna solution

Saunum Primary Spa – the most innovative sauna
product at Interbad 2022!

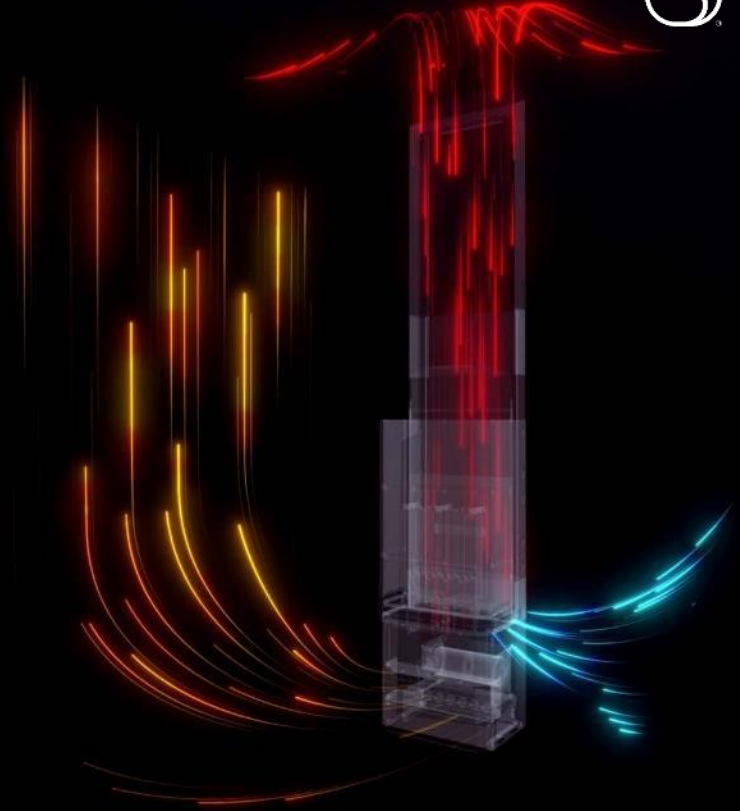

Innovative technology

Patented Air-Blending System

Saunum's patented Air-Blending System distributes the steam more evenly from head to toe, creating a soft and balanced climate within the sauna where it's easier to breathe and healthy negative salt ions are added to the air.

A balanced sauna climate

Tried and tested* for a more even temperature

Saunum solves one of the main problems with traditional steam saunas: uneven temperature distribution. Our patented air-blending system ensures a more even temperature from head to toe.

80 °C / 176 °F TRADITIONAL NORDIC SAUNA

	Without climate function:	With Saunum climate function:
Head level	108 °C / 226.4 °F	91 °C / 195.8 °F
Foot level	27 °C / 80.6 °F	65 °C / 149 °F
Difference	81 °C / 177.8 °F	26 °C / 78.8 °F

* Development work in cooperation with Tallinn University of Technology, during which thermal stratification and air movement in the sauna were analyzed.

Unique benefits

A much more rewarding sauna experience

Traditional
steam
sauna

Long, mild
steam

Easy to
breathe

No cold
feet

Suitable
for the whole
family

Saunum's devices allow you to enjoy a traditional hot sauna – and thanks to the climate control system, you can relax there for even longer.

The softer steam is easier to breathe, meaning water can be thrown more often to increase steam yield and air humidity, ensuring a more intense sweat.

My home spa

With their unique climate control system, Saunum devices transform your sauna into a peaceful five-in-one home spa that delivers an unprecedented steam experience.

Health and well-being

Enriching the air with salt ions

Salt aerosol is a well-known decongestant that reduces inflammation and has antimicrobial effects. Salt therapy is commonly used to treat asthma, bronchitis, pneumonia, sinusitis and respiratory tract diseases in children and adults. Airborne salt particles have a beneficial effect on the skin and are known for the cosmetic benefits of their high mineral content.

High quality

Durable materials

Saunum products are made with tested materials that are able to withstand harsh conditions.

Customizability

A versatile product range

With a range of color, design and installation options available, we're certain that you'll find the perfect product for your sauna project.

Easy to use

Control your sauna
anytime, anywhere

Preset options for different sauna types make it simple to start heating up your sauna with just a few taps.

And with the Saunum Leil Mobile Set, you can take full control of your sauna wherever you are.

Made in Estonia

A long love affair with the sauna

The sauna tradition in Estonia dates back to the 13th century, and the Estonian smoke sauna is on the UNESCO Representative List of the Intangible Cultural Heritage of Humanity.

Saunum combines all the best features of an authentic sauna with modern technology, resulting in a significantly more rewarding sauna experience.

Simply relax and enjoy a new sauna experience!

1. Traditional steam sauna

Temperature: 60–100 °C
Climate control system: speed level 1, valve opened 25%

2. Humid, steam-rich sauna

Temperature: 45–60 °C
Climate control system: speed level 2, valve opened 100%

The lower the temperature, the more open the valve and the higher the speed of the climate control system, the more steam is generated when water is thrown on the heater.

3. Mild, relaxing sauna

Temperature 40–55 °C
Climate control system: speed level 1, valve opened 25%

4. Sauna enriched with salt ions

Temperature 40–100 °C
Climate control system: speed level 1, valve opened 25%

When added to the climate control system, the salt balls work at any temperature so long as the system is switched on.

5. Aromatherapy sauna

Temperature 40–90 °C
Climate control system: speed level 1, valve opened 25%

Saunum aroma system mixes sauna oil aromas with the steam. It's a healthy alternative to burning aromatic oil on stove stones.

You will feel the difference

REGULAR SAUNA USER

Love the whole sauna process and consider it to be essential for good health.

To relax during weekends and share good experiences with friends and family.

SPORTS ENTHUSIAST

Well informed and demanding customers who trust performance research and expert recommendations.

To have proficient and methodical training recovery sessions after intensive workouts.

BITTERSWEET SAUNA USER

Experience a dissonance between their belief of how the sauna should feel and how it actually feels.

To avoid the pinching heat and find enjoyment and relaxation in the process.

WELLNESS ENTHUSIAST

Seek new wellness experiences to enhance physical health, mental well-being and overall balance.

To enhance personal well-being with holistic body and mind treatments.

EARLY ADOPTER

Desire trendy, innovative and cool products that they believe in and make them feel special and pampered.

To be the first to experience new sauna innovations.
