

saunum

Home spa sauna heater

saunum primary

Saunum Primary is a unique heater with a sauna climate device designed to enable an improved sauna experience in apartments and private houses. The large stone volume of Saunum Primary and the patented air mixing system ensure exceptional steam that is soft and long, and evenly distributed throughout the steam room. The salt balls added to the device enrich the air with Himalayan salt ions, which have a healing effect on the respiratory tract and skin. Saunum Primary offers at least five sauna solutions, creating a relaxing spa in your sauna.

Home spa sauna heater

saunum primary

With its compact dimensions and classically timeless design, Saunum Primary fits into any sauna. Choose either a minimalist closed stone basket or an open stone basket, in a Nordic black or elegant anthracite grey. With the Leil control unit, it is very easy to control the heater and the sauna climate device – you can heat the sauna and adjust the climate with just a few taps directly from the touch screen or from your smart device.

Saunum Primary offers an innovative steam experience that is suitable for the whole family. The softer steam mixed with softer and oxygen-rich air makes it easier to breathe. The five-in-one home spa solution allows you to turn a classic steam sauna into a sauna enriched with salt ions, a sanarium, a mild steam sauna, and an aroma sauna.

Five-in-one
home spa

Long mild
steam

Easy to
breathe

Suitable for
the whole family

Included

Heater, climate device, salt balls 7 pcs

Stone basket

Open, closed

Colour selection

black, anthracite grey

Climate device

3 speed levels, vent adjustment

Height of the device

adjustable 1800–2400 mm

Depth and width of the device

324 mm x 460 mm

Weight

40 kg

saunum primary

Open stone basket

Power of the heater	4,5 kW	6 kW	9 kW	12 kW
Sauna room	3-5 m ³	5-7 m ³	7-10 m ³	10-13 m ³
Min height of the room	200 cm	200 cm	200 cm	220 cm
Min safety distance from the heater:				
sides	150 mm	150 mm	200 mm	200 mm
front	150 mm	200 mm	250 mm	300 mm
from stones to ceiling	1000 mm	1000 mm	1000 mm	1300mm

Additionally required

Heater stones Ø 5-10 cm	60-70 kg	60-70 kg	90-105 kg	90-105 kg
Fuse, 3 phases	C10	C10	C16	C20
Power cable for the heater, 3 phases	5 x 1,5 mm ²	5 x 2,5 mm ²	5 x 2,5 mm ²	5 x 4 mm ²
Power cable for the climate device, 1 phase	3 x 1,5 mm ² / with Saunum Leil control device 5 x 1,5 mm ²			
Control unit	Saunum Leil or Saunum Leil Mobile			
For the aroma sauna	Saunum sauna oil set			

saunum primary

Closed stone basket

Choose the heater with power adequate to the cubage of the sauna room

However, for non-insulated walls (brick, glass block, glass, concrete, floor tiles, etc.) a more powerful heater is needed. Add 1.2 m³ to the cubage of the steam room per each square meter of uninsulated wall.

For example, a 10 m³ sauna room with a glass door corresponds to the power requirement of a 12 m³ sauna room.

How do Saunum's heater and climate device work?

Saunum's patented air-mixing system traps the scorching steam, that rises under the ceiling of the sauna room, mixes it with cooler air on the floor surface, and directs the soft steam back evenly. This ensures a more even temperature of the steam, and the oxygen-enriched steam makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat.

With a patented method of enriching the air with salt ions; the salt ions, from the Himalayan salt balls, added to the sauna climate device are emitted into the circulating air to reach the skin and respiratory tract.

An even more relaxing sauna experience is created with the help of the aroma system, which mixes sauna oil aromas with the steam. It is a healthy alternative to burning aromatic oil on stove stones.

Relaxing sauna and home spa

Try different settings and steam intensities and add your favourites to the selection of steam types on the control unit.

Classic Nordic steam sauna

Temperature 60–100 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Humid steam-rich sauna

Temperature 45–60 °C.

Speed level 2 of the climate device

The valve of the climate device is 100% open

The lower the temperature, the more open the valve and the higher the speed of the climate device, the more steam is generated when throwing water on a heater.

The mild sanarium

Temperature 40–55 °C

Speed level 1 of the climate device

If you prefer a humid, steam-rich sanarium, keep the valve of the climate device at least 25% open.

Sauna enriched with salt ions

Temperature 40–100 °C.

Speed level 1 of the climate device

The valve of the climate device is 25% open

The salt balls added to the climate device work at any temperature, if the sauna climate device is switched on.

Relaxing aroma sauna

Temperature 40–90 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Add some Saunum aroma oil to the sauna device and enjoy!
